

Money, money, money

This is the perfect plan
that we all six, now, have got today

At nine o'clock!

Kate and Mary will be waiting for the night

in the house!

Like two queens

It's a dream

It could be real:

gold and diamonds to be all rich

The four black girls we want to see are here

We are glad

Ready to steal

Money, money, money

We need money

We don't want to work

Money, money, money

We'll be happy

We don't want to work

Ohhh they are breaking into the house

Careful!

Quiet quiet quiet...

Ready, go to steal!

Ready, go to steal!

Super party

Oh, no! Monday morning. It's not fair!

I hate Maths, Science and French

I prefer hanging out with my friends
watching horror films and eating fast food

I hate reading boring books in my school.

Teachers say *Facebook* isn't good.

But too much homework causes
always bad mood

Super party! Studying can't be funny

Let's get out of here

Please listen to me,

We just wanna be all free.
